really, room, costume, together, only, true

Secret Robot

If you had a secret robot, what would you do?

Would you really like to have one? I would too.

If I had a secret robot, we would play Nintendo

Or sing and play music with my old brown banjo.

We could tidy up my messy room

Or dress up in a crazy costume.

My robot would be tall and could protect me

And always know when to be sad or be funny.

When I am mad, my robot would ask me why

And be there for me when I think I could cry.

I could depend on my robot

To help and be my mascot.

If I had a secret robot, we would have a blast.

The fun we would have together would go by too fast.

If you had a secret robot, what would you do?

I would hug my secret robot if only it was true.
